I'll see what I can condense and see what format Angela started with and get something done ASAP. I don't have the data pkg for organics other than hard copy on my desk covering the 2 bis-ethyl pthalate of concern

I am leaving a placeholder slide in the Administrator's package that says for a Summary of Data point see handout. So we may have till the morning to try to send that up.

If the corrections can be made sooner - that's great.

Angela McFadden---12/15/2011 05:32:47 PM---We might want to update first to clarify position on triethylene glycol. I believe we've dropped tri

What do you think about just sending this collection of 3 tables from the earlier briefing this week - data Tables?

Jon,

Here are the two slides we'll be adding. Karen has a format for the pre- and post-drilling data that she can use in the second slide.

Subject: two more slides

---

Karen,

If you can add the information we talked about early tomorrow that would be great. Kudos to your group for the tremendous effort to get through all the data so quickly, especially when more keeps coming.

Will also send these to Jon so he can forward to HQs tonight with explanation that we will fill in more details in the morning.

Angela
